Re: MySmileSim

Hi Les

I just wanted to congratulate you and Jonathan on a great app.

MySmileSim has just generated an \$11,000.00 result for me last Friday 29th May, 2020.

The patient was unhappy with the look of his front teeth.

Using the MySmileSim App whilst the patient was in the chair, he took a selfie of himself.

We sent off a picture to your bureau for a simulation to be processed.

The result on receiving the simulated photo 5 min later, was an instantaneous booking for the first appointment.

The patient was very excited!

Thanks again  
Jonathan Resnick
