

Dear Les,

Thanks very much for affording us the opportunity to trial your new mySmileSim.Dental system.

Since the beginning of August we have had at least 5 patients sending us photographs of themselves wanting to see how much better they could look once their teeth were straightened.

It is pleasing to us that 4 out of the 5 patients have booked in for treatment so far.

It is also noted that we have received two additional potential new patients from mySmileSim.dental who were looking for a Dentist in Sydney.

We really appreciate this service and look forward to installing mySmileSim.dental in our other three practices in the very near future.

Please keep us informed of any new updates as and when they are ready.

Regards,

Dr Derek Mahony | *Specialist Orthodontist*
